Jeff's engaging manner and positive spin on the economy kept our attention throughout the evening and left us all feeling encouraged about the future.

UMA Financial Services

Thank you for helping to make our Board Retreat so successful! Not only was your presentation very informative, but it was also very entertaining. All of our Board Members remarked on how much they enjoyed the time you spent with us.

Rural Health Management Corporation

Health Care Clients

This was the first time that we have had someone from outside our industry give a presentation that would give the conference goers Continuing Education credit. Not only did we get approval from the State Department of Insurance for CE credit, but **the material that you presented was relevant to our business and our futures.** Your delivery style enhanced the overall effectiveness of the hour.

Utah Association of Health Underwriters

Your luncheon **presentation was informative, engaging and entertaining**, serving as 'the cherry on the top' of our conference offerings. Our evaluations show that you are a **perennial favorite with our members.** Working with you and your staff is always a pleasure.

Utah Hospitals & Health Systems Association

**Entertaining
and
Economist
in the same sentence?
YES!!**

You hit a home run! *Your exacting knowledge of key financial indicators made your presentation ring with credibility. Your humorous approach to the subject of economics kept our participants interested and to a degree begging for more. Your optimistic approach and its anchor in the fact that, even though we experience ups and downs, the American economy is and will certainly remain the world's economic engine was faith promoting despite our troubled economic times.*

Uintah Basin Healthcare

Your remarks were right on target with what our boards needed to hear and we also enjoyed your professional and humorous presentation.
