You managed to inform, energize, and entertain our STIHL Branch and Distributor attendees with your presentation of "Global Economics with a Twist".

STIHL Inc.

Thank you for giving such a superb presentation. In my 15 years with AGMA, we have never had such a high quality program. Everyone enjoyed your light-hearted approach to the discipline of economics. Our people came away from your session with knowledge they wouldn't have access to otherwise.

American Gear Manufacturers Association

Manufacturing Clients

Thank you very much for your excellent keynote address for the Petroleum Packaging Council's August meeting. Of the member meeting surveys we have had returned to date, **excellent is precisely the word** used by the respondents to describe your presentation.

Petroleum Packaging Council

Since 2000, you were rated among the top three speakers ever to appear before the Spring Manufacturers Institute's convention delegates. Now, after your second appearance, **the name Jeff Thredgold appears twice among the top three presentations.** It was obvious that you prepared specifically for our industry and tailored your remarks to a highly technical and esoteric audience.

Spring Manufacturers Institute

Your comments and presentation fit our organization like a glove. As the largest producer of commercial buses in North America, ElDorado National is imbedded in private and public transportation, so your specific points regarding our industry really hit home.

ElDorado National

Entertaining
and
Economist
in the same sentence?
YES!!

Your ability to inform in a humorous and articulate way about important financial and other current event issues is truly a gift. We, and our members, appreciate your willingness to share that gift with us.
