Dear Jeff and Lynnette:

What a fantastic way to kick off the opening general session of our 83rd Annual Agents Convention Sun Valley. We enjoyed two professionals – one offering an interesting, sometimes humorous, economic update – the other lifting us through beautiful, stirring music.

Time and time again we heard from our delegates and spouses expressing their delight at such an innovative concept.

An added bonus, Jeff, was your book, EconAmerica – Why the American Economy is Alive and Well, the joke book, as well as Lynnette's wonderful CDs.

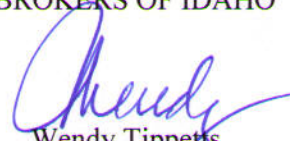

We appreciated getting to know you both, and learning a little of your background.

Thank you for a great program!

Sincerely,
