

Manufacturing Client Comments

“Many of our executives at the DaimlerChrysler Services Senior Management Meeting in Montreal made a point to catch me during the day and comment about **how engaging and informative your presentation was.**”

Dr. L. Todd Thomas, Senior Manager
DaimlerChrysler Services Academy

“Thank you for your wonderful presentation at the Spring Manufacturers Institute’s Annual Convention in British Columbia, Canada. The vast majority of the people who attended your session rated you as superior or excellent. I haven’t seen that high of a rating in years. **One of the problems we often face with speakers is that they may be entertaining, but they don’t always give our members something to apply when they get back to the plant. You gave us both!**”

Jennifer Macklin, Membership Services Manager
Spring Manufacturers Institute

“We very much enjoyed having you again as our keynote speaker at the MAATS Innovation Awards luncheon. Our audience was a diverse one in every sense of the word, and you successfully managed to captivate one and all. **You have a wonderful style, and feedback to date has been nothing short of excellent!**”

Thomas J. Dammrich, President
National Marine Manufacturers Association

“Thank you very much for your excellent keynote address for the Petroleum Packaging Council’s August meeting. Of the member meeting surveys we have had returned to date, **excellent is precisely the word** used by the respondents to describe your presentation.”

Irene Overman Kreer, Event Planner
Petroleum Packaging Council

“Your comments and presentation fit our organization like a glove. As the largest producer of commercial buses in North America, EIDorado National is imbedded in private and public transportation, so your specific points regarding our industry really hit home.”

Sheldon Walle, SVP, GM
EIDorado National
