Dear Jeff:

We have received nothing but raves from our members who attended your session at our Annual Conference in Victoria, B.C. last week. Thank you for making such an outstanding presentation!

Your session on "*The Impacts of Global Trade on Local Economics*" received the highest rating of any session during the three day conference. Your ability to capture the attention of the audience during what is typically a dull subject was remarkable. The presentation was informative, well paced and most importantly, fun!

Thank you for helping to make our Annual Conference a success.

Sincerely,
