To Whom It May Concern:

The Idaho Trucking Association had the privilege of hearing from Economist Jeff Thredgold at our annual convention. Those in attendance were well educated and entertained by Jeff's presentation. Sometimes we are a little leery of inviting an economist to speak to our members thinking it will be a little boring to those who may not be really interested in hearing what they have to say, but this was the exception. He was very entertaining with the information he presented; had wonderful handouts for those in attendance; and had information pertinent to Idaho. It was just a great choice for us.

If you are considering an economist to speak at your event, you should seriously consider using Jeff Thredgold.

Sincerely,
